

Secure Access, Simplified

WHY LOCKFINITY?

AS EASY AS 1, 2, 3

HASSLE-FREE INSTALLATION NO MODIFICATIONS, NO EXTRA COSTS!

LOCKFINITY INSTALLS SEAMLESSLY ON EXISTING DOORS. REALLY!

ULTRA-LONG BATTERY LIFE

With typical usage, the industry-leading replaceable battery efficiency provides 7-10 years of reliable performance.

RELIABLE CONNECTIVITY

Advanced LoRaWAN communication protocols ensure seamless operation across large storage facilities.

NO MORE LOST KEYS OR LOCK REPLACEMENTS

Install once and forget it for years.
Automatic tenant management.
You bring the tenants!

KEYPAD ACCESS FOR FLEXIBLE ENTRY

Enter your personal code on the lock's keypad to unlock - ideal for those who prefer not to use the mobile app.

SEAMLESS INTEGRATION

Works effortlessly with site management software, access control, billing, and customer management systems.

AUTOMATED OVERLOOK

Touchless lock management that automatically restricts access for non-payment.

LOWER LABOR COSTS

Minimize on-site interventions and reduce the need for staff, cutting operational expenses.

EFFORTLESS ACCESS, ANYTIME

MONITOR, CONTROL, AND ACCESS YOUR LOCK
DIRECTLY FROM YOUR SMARTPHONE

24/7 keyless entry

Customers can access their units anytime - no staff assistance needed.

Easy key sharing

Securely share keypad codes or mobile app keys with family, movers, or temporary guests.

Flexible lock access

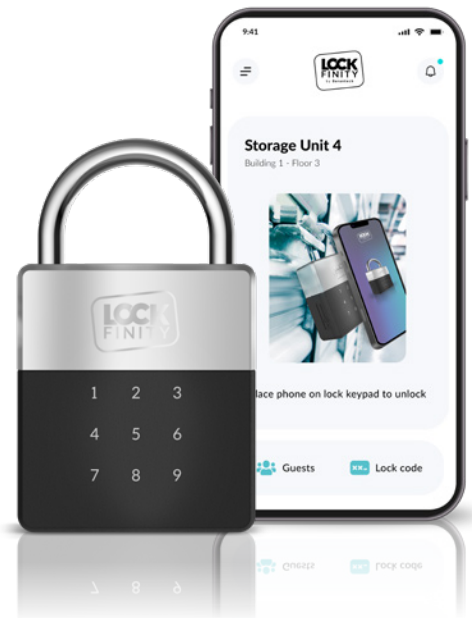

Unlock via a durable weatherproof keypad or an advanced mobile app.

Compatibility

iOS or Android (with NFC)

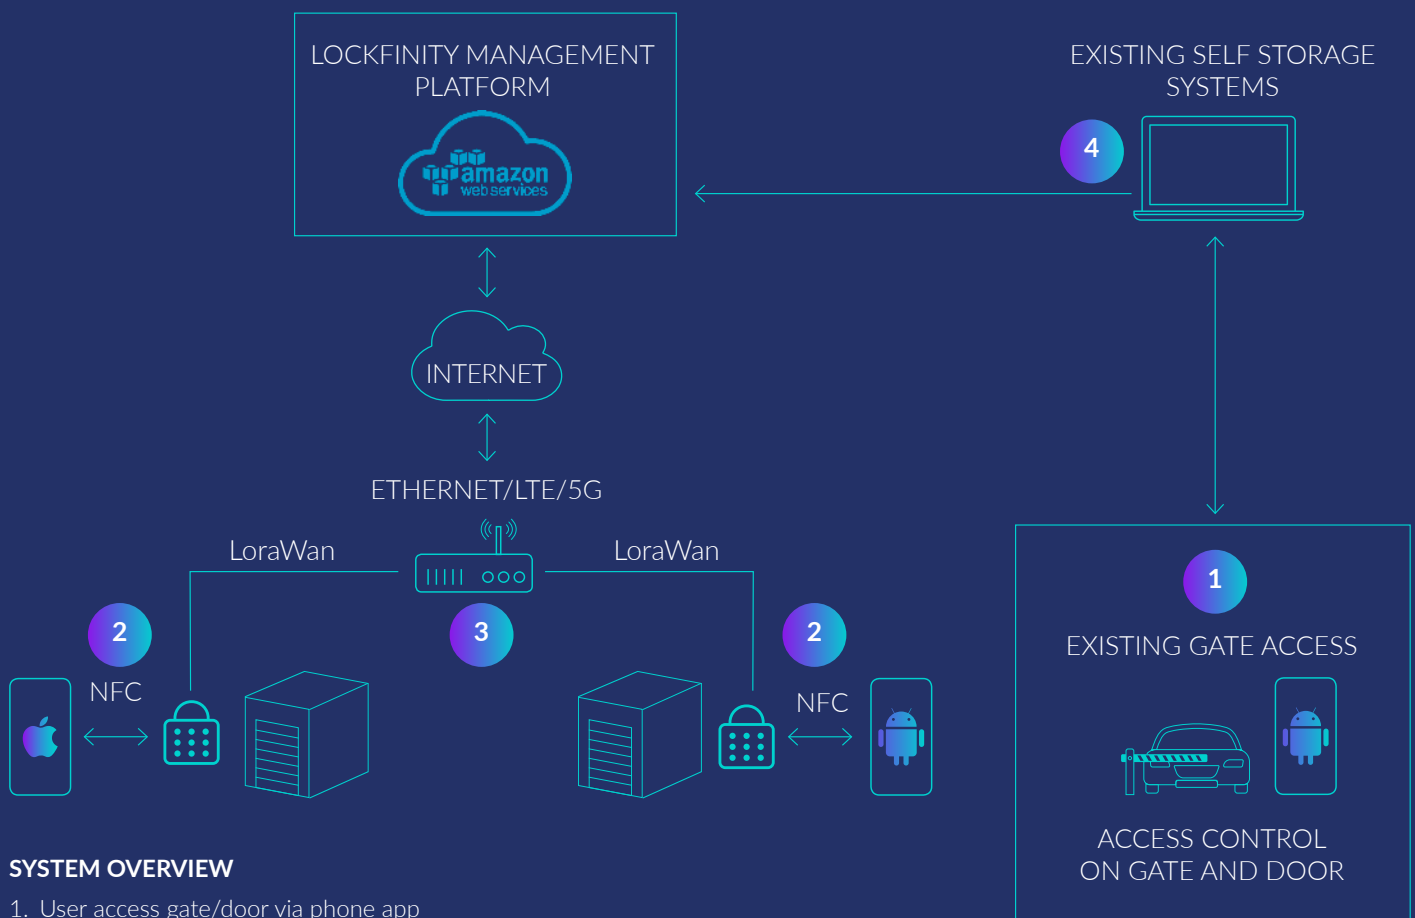

Weather resistance rating

IP65

LOCKFINITY SOLUTION OVERVIEW

EASY-TO-USE, CLOUD-BASED WEB PORTAL

SYSTEM OVERVIEW

1. User access gate/door via phone app
2. User access padlock via phone app (NFC)
3. Lock connects to cloud via LoraWan
4. Cloud management via internet

Real-time alerts

Set up your own alerts, both for your organization and for your customers. For example, temperature, storage usage and more.

Remote access control

Grant or revoke access anytime, from anywhere.

Access tracking & audit trail

Maintain a detailed log of every entry, tracking who accessed each unit and when.

Unlocked unit detection

Instantly identify any unit left open.

New revenue streams

Offer premium services like open-unit alerts, limited-time guest access, and time-based entry pricing.
